

YIGAL ARNON & Co.
LAW FIRM

Local Authorities

Yigal Arnon & Co. brings decades of experience to the table in negotiating between local authorities in Israel and the central government. Our familiarity with the overall legal framework—and the complex relationships between local entities and the central government—enables us to advise on regulations and mediate among parties.

For example, we:

- Work with municipalities and other local authorities on the Smart City Project
- Counsel local authorities and candidates in elections—for example, on donations and funding, canvassing and understanding how nonprofit organizations are regulated
- Advise on the formation of water and sewerage corporations

Our Local Authorities Group also has a wealth of knowledge about the municipal-level bylaws of dozens of local and regional authorities, as a result of our work with dozens of local authorities on water treatment facilities, sewage treatment facilities and other such ventures.
