Yigal Arnon GDPR and Israeli Privacy Laws - Packages

Yigal Arnon & Co. counsels clients in connection with a wide range of data privacy matters including privacy audits and strategy, privacy notices, cross-border transfers, data collection and sharing, direct marketing, outsourced data-related services, commercial transactions having privacy and data protection implications and database management.

Yigal Arnon & Co. also represents major Israeli and multi-national clients in complex privacy and data protection litigation, including class actions, thereby gaining first-hand insights into the law as it is being shaped by the courts and governmental agencies.

We provide counsel as to high-level strategy as well as day-to-day implementation questions.

Members of our privacy team have been certified by the International Association of Privacy Professionals in the European Union's General Data Protection Regulation (GDPR) and U.S. Private Sector Privacy and have the required expertise to perform analyses in that field in coordination with EU / U.S. lawyers and data protection professionals.

Our close relationships with foreign law firms –including in the United States, Europe and elsewhere– enable us to ensure that clients receive comprehensive guidance responsive to our clients' privacy and data protection needs. This allows Yigal Arnon & Co. to offer a range of services related to Israeli, European (GDPR) and United States requirements, including turnkey solutions.

Yigal Arnon & Co. offers a variety of packages relating to Israel Privacy and GDPR services, as detailed in this brochure.
